TERMS &
POLICIES

RECOMMENDED RETAIL PRICES IN EUR

The prices are valid from October 1st 2022.
All prices are recommended retail prices and
include VAT / MWST based on 19%.

The prices are per single item unless otherwise indicated.
Please note that we reserve the right to make
changes in the pricelist.

ASSEMBLY

Most tables, chairs, and loungers require assembly.

CONDITIONS OF SALE

All prices are subject to our standard Conditions of Tender
and Sale.

All orders are accepted subject to being charged at the
prices valid at the date of dispatch.

WARRANTY

HOUE offers a two or five year warranty on all products. All
maintenance instructions must be followed to obtain warranty.

RETURNS POLICY

Written authorization must be obtained from HOUE prior
to returning any products. Products returned without prior
written authorization will be refused. HOUE only accepts
the return of a product if it is a manufacturing defect.

Returned products are inspected by our Quality Control
Manager and replaced or repaired if the damage is a result
of a manufacturing defect. If it is determined not to be a
manufacturing defect, the customer, along with the Quality
Control Manager will decide which further actions to take.

Returned products will only be accepted if returned in their
original packaging.

SPECIFICATIONS

We reserve the right to change specifications and
descriptions based on technical developments and the
availability of materials.

**we are driven by
affordable luxury as
a philosophy**

HOUE is a Danish design house founded in 2007. We combine great comfort and design in our work.

HOUE is driven by affordable luxury as a philosophy, by choosing the right materials and solutions. We draw from a proud heritage of Scandinavian design and craftsmanship with mass appeal.

HOUE products are manufactured only on well-established factories with whom we have worked closely for several years. The products are not random mass production – every detail, joint, or component is thoroughly chosen or invented by experienced HOUE team members to make a unique product.

HOUE offers both an outdoor and indoor collection. HOUE puts a lot of effort into our product development and always meets high standards in terms of responsibility, design, price, and quality.

OUTDOOR
DINING & LOUNGE

Designed by HENRIK PEDERSEN

A collection of outdoor chairs made of intelligently designed plastic lamellas combined with powder coated steel and beautiful bamboo parts. The components are carefully composed to give the lamellas exactly the right strength and resilience to provide excellent cushion free seating.

The lamellas come in many different colors and can be clicked on and off to modify the look of the chair – simply by changing or mixing the colors.

MyTrash
RECLIPS

OUTDOOR
DINING & LOUNGE

ReCLIPS is a collection of chairs with wide lamellas clipped on a powder coated aluminum frame.

The lamellas are made from Danish household plastic trash and produced in Denmark. The lamellas for the ReCLIPS collection contain 97% Danish household plastic trash added 3% color pigment. The technology behind reusing plastic household trash for furniture production is developed in Denmark. With ReCLIPS you are basically looking at the result of mixing Danish design and Danish innovation and converting this new thinking and material into a chair.

ReCLIPS Dining, Rocking and Lounge chairs come with the choice of aluminum or bamboo armrest. The aluminum frame combined with the UV protected plastic lamellas keep the maintenance to a minimum.

PAON

OUTDOOR DINING & LOUNGE

A collection of chairs in powder coated steel combined with beautiful bamboo lamellas.

PAON is French for Peacock and this bird is the inspiration behind the design of the PAON chairs – take a look at the back and you will notice.

PAON is light Scandinavian in its design with a touch of French Victorian romance. All PAON chairs are blessed with a seating comfort you would not expect from a metal chair.

MyTrash
NAMI

OUTDOOR
DINING & LOUNGE

The shell is made from Danish household plastic trash and the chair is produced in Denmark. The elegant curve in the shell is designed to resemble a wave washing over a beach. NAMI means wave and emphasizes the organic expression found in this elegant garden chair.

The design is based on the forces and lines of nature and finds its natural place outdoors exposed to wind and weather.

The beautiful, molded NAMI shell contains 97% Danish household plastic trash added 3% color pigment and the frame is powder-coated steel.

NAMI chairs are EU Ecolabel certified.

TABLES

OUTDOOR
DINING

Designed by HENRIK PEDERSEN

NAMI table designed by HANS THYGE & CO.

Combinations of powder coated steel or aluminum, bamboo and Danish household plastic trash create a collection of well designed outdoor dining tables which all complement HOUE dining chairs perfectly, enabling beautiful settings in the garden.

In the design process, a lot of effort is put into form and shape to make tables, that not only please the eye, but also give optimal stability and functionality.

TRAY TABLES

OUTDOOR &
INDOOR LOUNGE

EDGE designed by ROEE MAGDASSI

EYELET designed by HENRIK PEDERSEN

The tray tables can be used in many different ways – individually, as a side table, or in combination with different sizes and colors. Both EYELET and EDGE are easy to move to where they are needed – indoor as well as outdoor.

EYELET is made from powder coated aluminum and steel and EDGE from powder coated steel.

42

LEVEL / LEVEL 2

OUTDOOR LOUNGE

NEW FOR SEASON 2023

Introducing two NEW MODULES for season 2023 – both for LEVEL and LEVEL 2: Cozy corner and Chaiselong.

Introducing LEVEL 2 with a new softer design of the back cushions, creates a new addition to the existing collection and adds even more opportunities for lounging in comfort.

LEVEL and LEVEL 2 modules can be combined in many ways together with the bamboo tables – and will naturally create a relaxed and comfortable atmosphere anywhere.

The lightweight, powder coated aluminum frame combined with the soft cushions, in water repellent fabric, gives both contrast and comfort.

Designed by HENRIK PEDERSEN

AVON

OUTDOOR
LOUNGE

Designed by HENRIK PEDERSEN

The AVON collection was designed with focus on creating a lounge collection with a very light appearance and a low sleek profile, while maintaining a high level of comfort. The simplicity of the frame, where low lines ensure, that the design always appears stylish, with and without cushions – summer or winter.

The handle of the cushions is a statement. It also adds to the function of the product, making them easy to grab and store if needed.

MyTrash
RECLIPS

OUTDOOR
DINING & LOUNGE

ReCLIPS is a collection of chairs with wide lamellas clipped on a powder coated aluminum frame.

The lamellas are made from Danish household plastic trash and produced in Denmark. The lamellas for the ReCLIPS collection contain 97% Danish household plastic trash added 3% color pigment. The technology behind reusing plastic household trash for furniture production is developed in Denmark. With ReCLIPS you are basically looking at the result of mixing Danish design and Danish innovation and converting this new thinking and material into a chair.

ReCLIPS Dining, Rocking and Lounge chairs come with the choice of aluminum or bamboo armrest. The aluminum frame combined with the UV protected plastic lamellas keep the maintenance to a minimum.

Designed by Henrik Pedersen.

PAON

OUTDOOR DINING & LOUNGE

A collection of chairs in powder coated steel combined with beautiful bamboo lamellas.

PAON is French for Peacock and this bird is the inspiration behind the design of the PAON chairs – take a look at the back and you will notice.

PAON is light Scandinavian in its design with a touch of French Victorian romance. All PAON chairs are blessed with a seating comfort you would not expect from a metal chair.

Designed by Henrik Pedersen.

MyTrash
NAMI

OUTDOOR DINING

The NAMI chairs consists of a powder coated steel frame with a beautifully molded plastic shell. The shell is made in Denmark from 97% Danish household plastic trash with 3% color pigment added.

The chair comes in 3 models and 3 different colors: Black, dark grey and olive green, with a frame in the same color as the shell. The shell is made from Danish household trash.

The elegant curve in the shell is designed to resemble a wave washing over a beach. NAMI means wave and emphasizes the organic expression found in this elegant garden chair.

The design is based on the forces and lines of nature and finds its natural place outdoors exposed to wind and weather.

NAMI chairs are EU Ecolabel certified.

TABLES

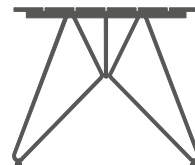

OUTDOOR DINING & LOUNGE

Combinations of powder coated steel or aluminum, bamboo and Danish household plastic trash create a collection of well designed outdoor tables which all complement HOUE dining chairs perfectly, enabling beautiful settings in the garden.

In the design process, a lot of effort is put into form and shape to make tables, that not only please the eye, but also give optimal stability and functionality.

Designed by Henrik Pedersen.

TRAY TABLES

OUTDOOR & INDOOR LOUNGE

EYELET

This graphically beautiful side table can be used in many different ways – individually or in combination with different sizes and colors. The EYELET tables are easy to move to where they are needed – indoor as well as outdoor. The EYELET tray table has a special drain system, which keeps the tray free from water after a rain shower. EYELET is made in powder coated aluminum with powder coated steel legs and comes in 3 different sizes.

Designed by Henrik Pedersen.

EDGE

EDGE tray table is suitable for both indoor and outdoor use. The half ring shaped handle makes it easy to move the table between the living room and the garden, and when laid down it functions as a table edge, making sure everything stays in place. EDGE is made in powder coated steel and comes in 3 different sizes.

AVON

OUTDOOR LOUNGE

A lounge collection with a frame in powder coated black steel and soft cushions in Sunbrella fabric. Tabletop in thermo ash FSC® – FSC C153404.

The AVON collection was designed with focus on creating a lounge collection with a very light appearance and a low sleek profile, while maintaining a high level of comfort. The simplicity of the frame, where low lines ensure, that the design always appears stylish, with and without cushions – summer or winter.

The handle of the cushions is a statement. It also adds to the function of the product, making them easy to grab and store if needed.

MATERIALS & MAINTENANCE

OUTDOOR

FABRICS

Our SUNBRELLA fabrics are OEKO-TEX® and GREEN-GUARD certified, water repellent, stain resistant and easy to maintain.

SUNBRELLA HERITAGE

The Heritage fabrics are made of 50% recycled acrylic, 47% acrylic and 3% polyester. Colorful fibres from the recycling process of the material may appear in the weave and the fabric color can vary slightly from one batch to another. This creates a unique fabric with a natural look.

SUNBRELLA NATTÉ

The Natté fabric is made of 100% acrylic.

BASIC FABRIC

The Basic fabric is water and stain resistant and made of 100% polyester.

PLASTIC

POLYPROPYLENE (PP)

PP is a hard recyclable plastic material. It is low maintenance and durable as UV additives are added to protect the material from sunlight and keep the colors vibrant.

HOUSEHOLD PLASTIC TRASH (MyTrash)

MyTrash is our term for the recycled plastic that we use to create our collections; ReCLIPS and NAMI series. This plastic is sourced from Danish household trash and repurposed into Danish design products.

By using recycled plastic, we are able to reduce our reliance on virgin materials and still produce high-quality products with the same properties as new plastic in terms of performance and durability.

The recycled base material varies in color from batch to batch, which may result in minor color variations.

THERMO ASH

Our thermo ash is sourced from sustainably managed European forests (FSC® – FSC C153404) and is thermally treated at a temperature of 215°C without any addition of chemical substances. This treatment turns the color of the wood into a warm brown color and ensures an impressive durability.

Over time wind and weather will give the thermo ash a grey patina. To keep or to regain the brown color, just sand the surface and treat it with an oil suitable for outdoor furniture. We recommend treating the thermo ash with oil on a regular basis.

BAMBOO

Bamboo is a type of grass that grows from its roots and when harvested it quickly grows back without the need for watering or use of pesticides.

For outdoor furniture it is a material that needs to be taken care of in order to maintain a rich and beautiful surface. The material has a hard surface but since it does not contain oil naturally, it becomes porous if left to dry out. We recommend treating the bamboo with oil specifically for outdoor furniture on a regular basis to help protect it from the elements.

METAL

STEEL

Steel parts are powder coated with two layers; a primer and a top layer that is UV resistant and suitable for outdoor use. The surface treatment prevents rust, but if damaged rust will develop. Therefore, we recommend that scratches exposing the metal are repaired with repair lacquer.

ALUMINUM

Aluminum parts have one layer of powder coat that is UV resistant and suitable for outdoor use. The surface treatment will prevent corrosion and repairing scratches with repair lacquer is recommended - mainly to keep the appearance of the product.

In general, other conditions apply to all materials exposed to extreme climates. Please refer to our maintenance guides for detailed information.

RRP ex VAT €12,50

together we make it last

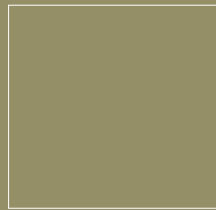

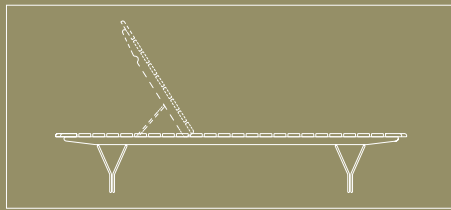

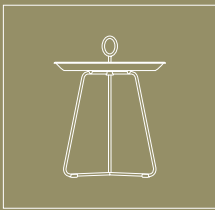

At HOUE we focus on high quality design and carefully select the best material options available. We see it as our responsibility to develop durable products and our furniture is built to withstand the wear and tear of everyday use.

As the sustainability agenda has become increasingly important it is obvious that the throw-away culture belongs to the past. Instead, it is required that furniture is not only of high quality – but also designed responsibly to ensure that it is easy to maintain and repair – or even possible to replace parts if required.

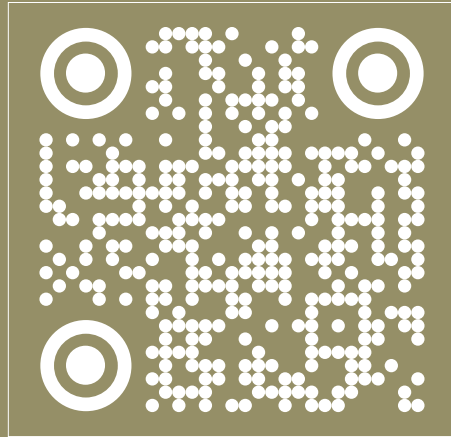

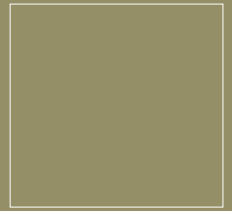

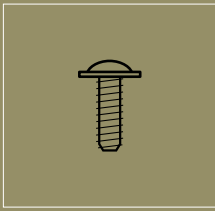

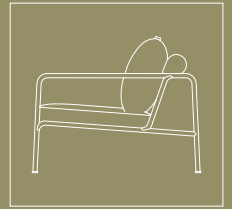

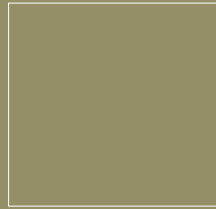

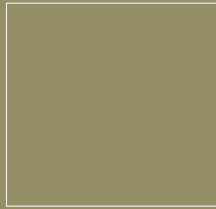

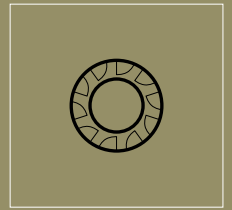

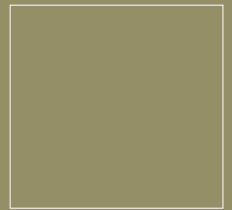

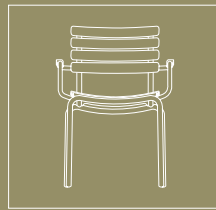

We believe that there are a lot of sustainable achievements to be gained in the use phase of our products. With proper care the lifespan can be extended significantly, and this is fundamental in order to minimize the environmental impact.

We wish to inspire you to take good care of your products.

We offer products for maintenance as well as spare parts to replace and renew parts such as lamellas and armrests – this keeps the original look and function of your furniture for many years to come.
