“FAMILY HERITAGE SPANNING THREE GENERATIONS.”

6

THE TIPTOE ADVENTURE BEGAN IN 2015.

By creating TIPTOE in Paris, in 2015, we made it our mission to create sustainable, beautiful and timeless furniture, all at a fair price. By “sustainable furniture”, we mean furniture that is both well-designed, well-made - 100% in Europe and designed to stand the test of time.

Our obsession? To create useful and timeless objects, durable and of high quality, at the right price every time. These demands are based on the excellence of a 100% European production combined with the know-how of our family factory created 3 generations ago near Chamonix by the grandfather of Matthieu Bourgeaux.

Vincent Quesada (left) and Matthieu Bourgeaux (right), TIPTOE cofounders

7

L’AVENTURE TIPTOE COMMENCE EN 2015.

En créant TIPTOE à Paris en 2015, nous nous donnons pour mission de créer des meubles durables, beaux et intemporels, le tout au prix juste. Par « meubles durables », nous entendons des meubles à la fois bien pensés, bien produits à 100% en Europe et conçus pour résister à la vie.

Notre obsession ? Créer des objets utiles et intemporels, durables et de grande qualité, à chaque fois au prix juste. Ces exigences s’appuient sur l’excellence d’une fabrication 100% européenne alliée au savoir-faire de notre usine familiale créée il y a 3 générations près de Chamonix par le grand-père de Matthieu Bourgeaux.

WE ARE ON A MISSION TO MAKE SUSTAINABLE FURNITURE

To bring truly sustainable solutions, we take a comprehensive approach to sustainability by rethinking the way furniture is designed, made and purchased. From design to logistics, every step is designed to minimise our environmental impact. Eco-design is at the heart of our approach. We have established 5 principles for sustainable design that guide the development of our products.

8

NOUS CRÉONS DES MEUBLES DURABLES, BIEN PENSÉS, BIEN PRODUITS ET CONÇUS POUR DURER

Pour apporter des solutions véritablement pérennes, nous adoptons une approche globale de la durabilité en repensant la manière dont on conçoit, produit et achète du mobilier. Du design à la logistique, chaque étape est pensée de sorte à minimiser notre impact environnemental. L'éco-conception est au cœur de notre démarche. Nous avons établi 5 principes pour un design durable qui guident le développement de nos produits.

The choice of materials is also central to our approach to sustainability. We use materials that are already recycled or easily recyclable, and always highly durable. At the same time, we are making significant R&D efforts to develop and enable the use of newly recycled materials.

Beyond our products, we are convinced that a business venture should not be simply limited to economic objectives.

9

Le choix de nos matériaux est également central dans notre approche de la durabilité. Nous utilisons des matériaux déjà recyclés ou facilement recyclables et toujours très résistants. En parallèle, nous déployons d'importants efforts de R&D pour développer et permettre l'usage de nouveaux matériaux issus de la revalorisation.

Au-delà de nos produits, nous sommes convaincus qu'un projet d'entreprise ne devrait pas se limiter à une simple finalité économique.

GUIDED BY AN AMBITIOUS BUSINESS PLAN, TIPTOE OFFICIALLY BECAME A PURPOSE-DRIVEN COMPANY IN 2021

The concept of a purpose-driven company was introduced in 2019 with the PACTE law. It offers companies the possibility of adding a social or environmental objective to their articles of association in addition to an economic objective. This means that our commitments written into the legal framework of the company and have been filed with the competent commercial court.

This status makes the respect of our sustainability commitments legally binding. The purpose of the company is no longer limited to its economic objectives but must be reconciled with a mission for the common good.

PORTÉE PAR UN PROJET D'ENTREPRISE AMBITIEUX, TIPTOE EST DEVENUE ENTREPRISE À MISSION EN 2021

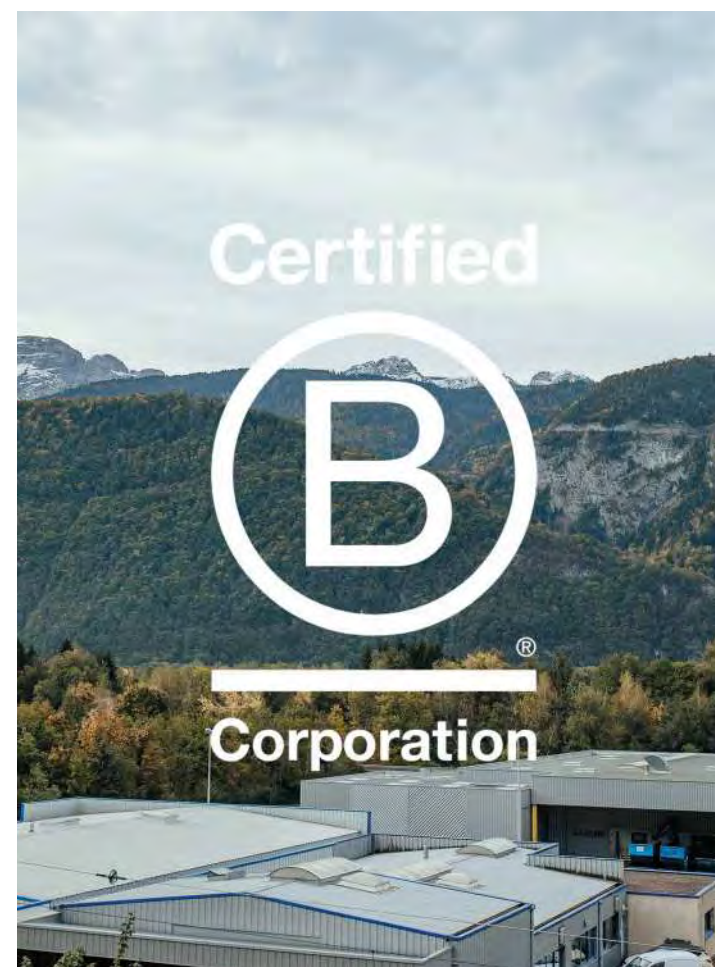

Le statut d'entreprise à mission a été introduit en 2019 avec la loi PACTE. Il offre aux entreprises la possibilité d'ajouter dans leurs statuts un objectif social ou environnemental en plus d'un objectif économique. Cela signifie que nos engagements sont inscrits dans le cadre légal de l'entreprise et ont été déclarés au greffe du tribunal de commerce.

Ce statut nous oblige légalement à respecter nos engagements en matière de durabilité. La finalité de l'entreprise n'est désormais plus limitée à ses seuls objectifs économiques mais doit être conciliée avec une mission pour le bien commun.

TIPTOE GETS B CORP CERTIFIED IN 2022

B Corp is an international certification awarded to companies that meet high social and environmental standards and that demonstrate a progressive approach. B Corp stands for "Benefit Corporation" and refers to a company that is recognised as having a positive impact on the world.

The certification covers 5 distinct areas: environment, governance, employees, customers and community. By becoming a B Corp, TIPTOE joins a movement of committed companies who want to rethink the world of tomorrow and have a positive impact.

TIPTOE EST CERTIFIÉE B CORP EN 2022

B Corp est une certification internationale accordée aux entreprises qui respectent des normes sociales et environnementales élevées et qui s'inscrivent dans une démarche de progrès. B Corp est l'abréviation de « Benefit Corporation » et désigne une entreprise reconnue pour ses effets bénéfiques sur le monde.

La certification porte sur 5 domaines distincts : l'environnement, la gouvernance, les employés, les clients et la communauté. En devenant B Corp, TIPTOE intègre un mouvement d'entreprises engagées, qui souhaitent repenser le monde de demain et avoir un impact positif.

 Lampe NOD à poser - vert romarin - p. 191

LIGHTING

TIPTOE's first-ever lamp is the result of over a year and a half of research and development. Our goal was to create a timeless, long-lasting and functional lamp while giving our own interpretation of an iconic piece of design.

La première lampe signée TIPTOE voit le jour après plus d'un an et demi de développement. Notre volonté était de créer une lampe intemporelle, durable et fonctionnelle tout en réinterprétant l'archétype du genre.

NOD table lamp - majorelle blue - p.191
Lampe NOD à poser - bleu majorelle - p.191

NOD TABLE LAMP

The NOD lamp features a variable dimmer switch that creates different lighting moods throughout the day. NOD's head can be tilted 35 degrees to either side. This means that the light can be directed as needed.

La lampe NOD possède un variateur d'intensité à réglage progressif pour créer différentes ambiances de lumière au fil de la journée. Sa tête, inclinable à 35 degrés de chaque côté, fait la singularité de la lampe.

NOD table lamp - eucalyptus grey - p.191
Lampe NOD à poser - gris eucalyptus - p.191

NOD clamp-on lamp - cloudy white - p.191
Lampe serre-joint NOD - blanc nuage - p.191

NOD CLAMP-ON LAMP
