TERMS & POLICIES

ASSEMBLY

Most tables, chairs, and loungers require assembly.

CONDITIONS OF SALE

All prices are subject to our standard Conditions of Tender and Sale.

All orders are accepted subject to being charged at the prices valid at the date of dispatch.

WARRANTY

HOUE offers a two or five year warranty on all products. All maintenance instructions must be followed to obtain warranty.

RETURN POLICY

Written authorization must be obtained from HOUE prior to returning any products. Products returned without prior written authorization will be refused. HOUE only accepts the return of a product if it is a manufacturing defect.

Returned products are inspected by our Quality Control Manager and replaced or repaired if the damage is a result of a manufacturing defect. If it is determined not to be a manufacturing defect, the customer, along with the Quality Control Manager will decide which further actions to take.

Returned products will only be accepted if returned in their original packaging.

SPECIFICATIONS

We reserve the right to change specifications and descriptions based on technical developments and the availability of materials.

HOUE.COM

the experience of design and affordable high-quality

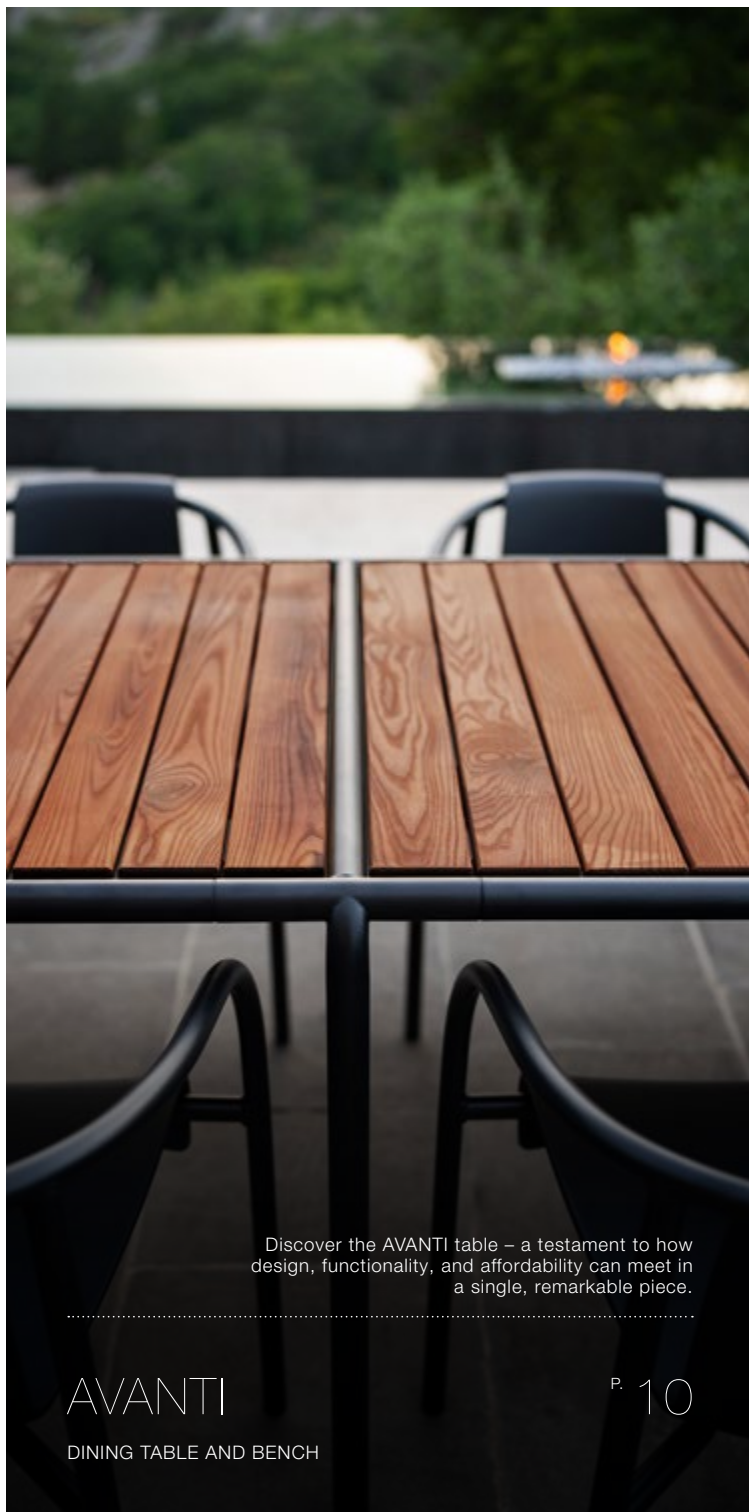

HOUE is a Danish design house established in 2007 and founded on the Danish furniture tradition. We aim to bring the experience of design and affordable high-quality furniture to our customers.

In close cooperation, our designers and experienced development team ensure that every detail, joint, and component is carefully chosen or invented to create a unique product that combines comfort and aesthetics.

HOUE products are manufactured only in well-established factories with whom we have worked closely for several years.

With a commitment to responsible production, our indoor and outdoor collections meet high standards in terms of durability, design, quality, and price. Our thoughtful designs are made to enhance living space with style and functionality.

PAON

OUTDOOR DINING & LOUNGE

A collection of furniture in powder coated steel combined with beautiful bamboo seats.

PAON is French for Peacock, and this bird is the inspiration behind the design of the PAON collection – have a look at the back, and you will notice.

PAON is light Scandinavian in its design with a touch of Victorian romance. The PAON collection is blessed with a seating comfort you would not expect from a furniture made of steel.

RECLIPS

OUTDOOR DINING & LOUNGE

ReCLIPS is a collection of chairs with wide lamellas clipped onto a powder coated aluminum frame.

NEW FOR 2024 SEASON – we introduce ReCLIPS Counter chair. Just like the ReCLIPS Bar chair, it is available in black and olive green.

The lamellas are made from Danish household plastic waste and produced in Denmark. The expertise behind recycling plastic from households for furniture production is developed in Denmark. With ReCLIPS, you are essentially witnessing the result of mixing Danish design and Danish innovation, converting this new thinking and material into a chair.

ReCLIPS Dining, Rocking, and Lounge chairs come with the choice of aluminum or bamboo armrests. The aluminum frame, combined with the UV protected plastic lamellas, ensure that maintenance is kept to a minimum.

MyTrash
NAMI

OUTDOOR DINING & LOUNGE

NAMI collection consists of two dining chairs, a lounge chair and a café table.

The shell and tabletop are made from Danish household plastic waste and produced in Denmark.

The elegant curves in the shell are designed to resemble a wave washing over a beach. NAMI means wave and emphasizes the organic expression found in these stylish garden chairs.

The design is based on the forces and lines of nature and finds its natural place outdoors exposed to wind and weather.

The beautiful, molded NAMI shell and tabletop contains 97% Danish household plastic waste and 3% color pigment, and the frame is powder coated steel.

NAMI chairs are EU Ecolabel certified.

TABLES

OUTDOOR
DINING

Designed by HENRIK PEDERSEN

NAMI table designed by HANS THYGE & CO.

Combinations of powder coated steel or aluminum, bamboo and Danish household plastic waste create a collection of well-designed outdoor dining tables which all complement HOUE dining chairs perfectly.

In the design process, a lot of effort is put into form and shape to make tables, that not only please the eye, but also give optimal stability and functionality.

LEVEL / LEVEL2

OUTDOOR LOUNGE

NEW FOR 2024 SEASON

The lounge collections LEVEL / LEVEL2 are now available with our new color: muted white, for all frames as well as the well-known dark grey.

LEVEL and LEVEL2 modules can be combined in many ways.

Muted white gives the lounge modules a light and clean look that blends into various surroundings – and complements the numerous textile colors available.

The lightweight, powder coated aluminum frame combined with bamboo tables and soft cushions, provides comfortable lounge areas naturally creating a cozy atmosphere anywhere.

AVON

OUTDOOR
LOUNGE

Designed by HENRIK PEDERSEN

The AVON collection is designed with focus on creating a lounge collection with a very light appearance and a low sleek profile, while maintaining a high level of comfort. The simplicity of the frame, where low lines ensure, that the design always appears stylish, with and without cushions – summer or winter.

NEW FOR 2024 SEASON – Muted white frames and our Basic fabric are available as an addition to numerous colors in Sunbrella Heritage.

AVANTI

OUTDOOR DINING

Welcome AVANTI

Discover the AVANTI table – a testament to how design, functionality, and affordability can meet in a single, remarkable piece.

The name 'AVANTI' signifies progression, mirroring the table's innovative design that allows it to expand precisely according to your needs.

A distinctive yet minimalistic look enables this table to complement any chair or to be mixed with the AVANTI Bench.

The AVANTI table is designed with a modular nature, where three predefined lengths can either form individual tables – or be customized to any length by using one or more extension sets. This flexibility supports various arrangements, from cozy café styles to larger group settings.

The angled legs at the corners offer free placement and full usability of the table top surface, maximizing your space.

The AVANTI table and bench frames consist of powder coated black steel tubes, linked with connectors that offer remarkable stability and effortless assembly. The firm feet of AVANTI are an additional detail that refines the design.

Bench- and table tops are available in either thermo ash or pine (FSC® – FSC C153404), completing the modular design.

AVANTI Dining tables are EU Ecolabel certified.

PAON

OUTDOOR DINING & LOUNGE

A collection of furniture in powder coated steel combined with beautiful bamboo seats.

PAON is French for Peacock, and this bird is the inspiration behind the design of the PAON collection – have a look at the back, and you will notice.

PAON is light Scandinavian in its design with a touch of Victorian romance. The PAON collection is blessed with a seating comfort you would not expect from a furniture made of steel.

MyTrash RECLIPS

OUTDOOR DINING & LOUNGE

ReCLIPS is a collection of chairs with wide lamellas clipped onto a powder coated aluminum frame.

The lamellas are made from Danish household plastic waste and produced in Denmark. The plastic for the ReCLIPS collection contains 97% household plastic waste and 3% color pigment.

The expertise behind recycling plastic from households for furniture production is developed in Denmark. With ReCLIPS, you are essentially witnessing the result of mixing Danish design and Danish innovation, converting this new thinking and material into a chair.

ReCLIPS Dining, Rocking, and Lounge chairs come with the choice of aluminum or bamboo armrests. The aluminum frame, combined with the UV protected plastic lamellas, ensure that maintenance is kept to a minimum.

MyTrash
NAMI

OUTDOOR DINING & LOUNGE

NAMI Collection consists of two dining chairs, a lounge chair and a café table.

The shell and tabletop are made from Danish household plastic waste and produced in Denmark.

The elegant curves in the shell are designed to resemble a wave washing over a beach. NAMI means wave and emphasizes the organic expression found in these stylish garden chairs.

The design is based on the forces and lines of nature and finds its natural place outdoors exposed to wind and weather.

The beautiful, molded NAMI shell and tabletop contains 97% Danish household plastic waste and 3% color pigment, and the frame is powder coated steel.

NAMI chairs are EU Ecolabel certified.

Designed by Hans Thyge & Co.

TABLES

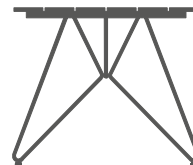

OUTDOOR DINING & LOUNGE

Combinations of powder coated steel or aluminum, bamboo and Danish household plastic waste create a collection of well-designed outdoor dining tables which all complement HOUE dining chairs perfectly.

In the design process, a lot of effort is put into form and shape to create tables, that not only please the eye but also provide optimal stability and functionality.

TRAY TABLES

OUTDOOR & INDOOR LOUNGE

EYELET

This graphically beautiful side table can be used in many ways – individually or in combination with different sizes and colors. The EYELET tables are easy to move to where they are needed – indoor as well as outdoor. The EYELET tray table has a special drainage system, which keeps the tray free from water after a rain shower. EYELET is made in powder coated aluminum with powder coated steel legs and comes in 3 different sizes.

Designed by Henrik Pedersen

EDGE

EDGE tray table is suitable for both indoor and outdoor use. The half ring shaped handle makes it easy to move the table between the living room and the garden, and when laid down it functions as a table edge, making sure everything stays in place. EDGE is made in powder coated steel and comes in 3 different sizes.

OUTDOOR LOUNGE

A lounge collection with frames in powder coated steel and soft cushions in Sunbrella Heritage and Basic fabric.

Tabletop in thermo ash (FSC® – FSC C153404).

The AVON collection is designed with focus on creating a lounge collection with a very light appearance and a low sleek profile, while maintaining a high level of comfort. The simplicity of the frame, where low lines ensure, that the design always appears stylish, with and without cushions – summer or winter.

The handle of the cushions is a statement. It also adds to the function of the product, making them easy to grab and store if needed.

MOLO

OUTDOOR LOUNGE

A sunbed with soft rounded bamboo lamellas and a leg-construction in powder coated black steel.

The back of the MOLO Sunbed is adjustable with five different positions, which makes it possible to either lay down or sit – it is versatile and can be used as a daybed too.

MOLO Wheel set is an optional addition to MOLO, providing the convenience to move the sunbed around with ease.

Tube size	Ø10 mm // 0,4 in	Height	34,5 cm // 13,6 in	Backrest height	34,5-99 cm // 13,6-39 in	Positions	5
Slats used	24 pcs	Wheel	Ø17 cm // Ø6,7 in				

MATERIALS & MAINTENANCE

OUTDOOR

FABRICS

Our SUNBRELLA fabrics are OEKO-TEX® and GREEN-GUARD certified, water repellent, stain resistant and easy to maintain.

SUNBRELLA HERITAGE

The Heritage fabrics are made of 50% recycled acrylic, 47% acrylic and 3% polyester. Colorful fibres from the recycling process of the material may appear in the weave and the fabric color can vary slightly from one batch to another. This creates a unique fabric with a natural look.

SUNBRELLA NATTÉ

The Natté fabric is made of 100% acrylic.

BASIC FABRIC

The Basic fabric is water repellent and stain resistant and made of 100% polyester.

PLASTIC

POLYPROPYLENE (PP)

PP is a hard recyclable plastic material. It is low maintenance and durable as UV additives are added to protect the material from sunlight and keep the colors vibrant.

HOUSEHOLD PLASTIC WASTE (MyTrash)

MyTrash is our term for the recycled plastic that we use to create our collections; ReCLIPS and NAMI series. This plastic is sourced from Danish household waste and repurposed into Danish design products.

By using recycled plastic, we can reduce our reliance on virgin materials and still produce high-quality products with the same properties as new plastic in terms of performance and durability.

The recycled base-material varies in color from batch to batch, which may result in minor color variations.

METAL

STEEL

Steel parts are powder coated with two layers; a primer and a top layer that is UV resistant and suitable for outdoor use. The surface treatment prevents rust, but if damaged rust will develop. Therefore, we recommend that scratches exposing the metal are repaired with repair lacquer.

ALUMINUM

Aluminum parts have one layer of powder coat that is UV resistant and suitable for outdoor use. The surface treatment will prevent corrosion and repairing scratches with repair lacquer is recommended - mainly to keep the appearance of the product.

PINE

For centuries, pine wood has been a cornerstone of outdoor craftsmanship, trusted for its ability to withstand natural environment.

Our specially selected wood is sourced from sustainably managed European forests (FSC® – FSC C153404) and are oiled to preserve your furniture from moisture and effects of outdoor exposure.

Over time pine wood will get a deeper and intense color. For the best care we recommend to regularly apply oil to create a protective layer against the natural environment. Storing the furniture indoors during winter prevents damage from freezing temperatures and moist.

THERMO ASH

Our thermo ash is sourced from sustainably managed European forests (FSC® – FSC C153404) and is thermally treated at a temperature of 215°C without any addition of chemical substances. This treatment turns the color of the wood into a warm brown color and ensures an impressive durability.

Over time wind and weather will give the thermo ash a grey patina. To keep or to regain the brown color, just sand the surface and treat it with an oil suitable for outdoor furniture. We recommend treating the thermo ash with oil on a regular basis.

BAMBOO

Bamboo is a type of grass that grows from its roots and when harvested it quickly grows back without the need for watering or use of pesticides.

For outdoor furniture it is a material that needs to be taken care of in order to maintain a rich and beautiful surface. The material has a hard surface but since it does not contain oil naturally, it becomes porous if left to dry out. We recommend treating the bamboo with oil specifically for outdoor furniture on a regular basis to help protect it from the elements.

In general, other conditions apply to all materials exposed to extreme climates. Please refer to our maintenance guides for detailed information.

Repair lacquer for maintenance

together we make it last

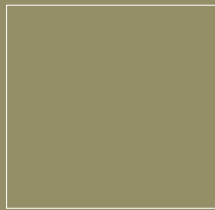

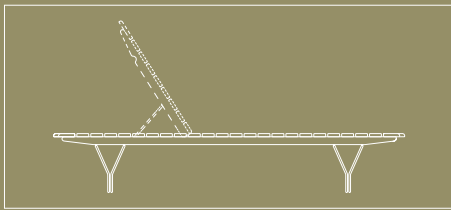

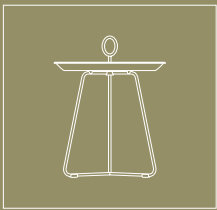

At HOUE we focus on high quality design and carefully select the best material options available. We see it as our responsibility to develop durable products and our furniture is built to withstand the wear and tear of everyday use.

As the sustainability agenda has become increasingly important it is obvious that the throw-away culture belongs to the past. Instead, it is required that furniture is not only of high quality – but also designed responsibly to ensure that it is easy to maintain and repair – or even possible to replace parts if required.

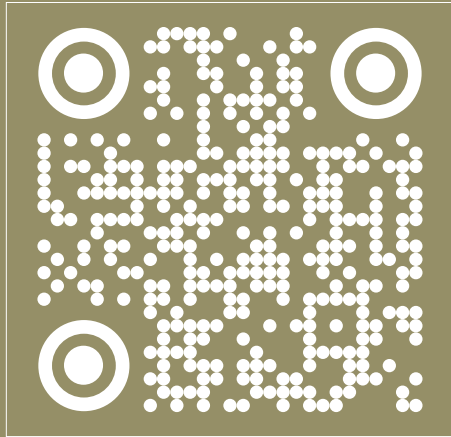

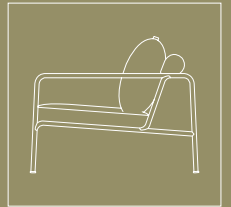

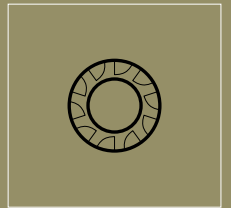

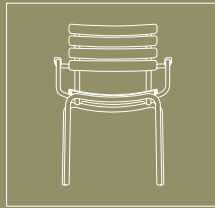

We believe that there are a lot of sustainable achievements to be gained in the use phase of our products. With proper care the lifespan can be extended significantly, and this is fundamental in order to minimize the environmental impact.

We wish to inspire you to take good care of your products.

We offer products for maintenance as well as spare parts to replace and renew parts such as lamellas and armrests – this keeps the original look and function of your furniture for many years to come.
