Ipotesi

Pag 873

"A daily gesture that each of us do when the darkness arises. A familiar ritual, which represents joy, safety, dedicated to the time spent together.

Turning on a light is a simple action, but full of meanings. This is where our story begins."

ideal

Light up your moments

Ideal lux **commits every day to becoming** the main point of reference when it comes to choose a lamp that expresses personality through a unique and current piece of furniture.

It all began in 1974, from the intuition of designing contemporary and accessible lighting accessories. Since then, ideal lux **has been committed to listening** to everyone's needs, proposing a wide variety of lighting styles and **meeting** every functional requirement. Whether it is a family, a business or a person at the beginning of his or her adventure

in a new home, ideal lux promises components **that live up to needs and dreams.**

The strong point, which is not renounceable when we talk about a company close to people, is a catalogue that meets any type of need: **more than 3,000 furnishing accessories** ranging from many product lines, from indoor and outdoor accessories, to the more technical ones.

Giving shape to light

When it comes to indoor solutions, the goal of ideal lux is to **create versatile sets** for all environments, letting **every moment live** with the right atmosphere and offering everyone the opportunity to experiment **with their own idea of home**. Even outside, the solutions offered for outdoor spaces do not sacrifice aesthetics and safety; they remain pleasant **design elements** even when you need some fresh air.

For professional spaces, which **require particular technical attention**, ideal lux has decided to work on many proposals that help distributing the light in the right direction, giving greater colour rendering, without ever losing sight of the design and **making the spaces**

where you create professional relations **unique** too.

However, if on one hand it is a very important commercial goal to guarantee a vast choice and an extensive catalogue, on the other hand Ideal Lux also cultivates with **meticulous care** its **relationship with customers**. How does it do so? By guaranteeing the possibility of purchasing a design product, one that is always updated to the latest trends and that is, above all, accessible to everybody. Whether the preferred style is industrial, minimal, classic, contemporary, modern or eclectic...anyone who so wishes, **can enter the Ideal Lux world**.

Planned out by ARCH.0

For Ideal Lux, a lamp is much more than an object. Illumination has the power to **influence our everyday life**, giving **unique character and personality to the environment**. For this reason, everyday Ideal Lux is committed to listening to people and their stories, with the aim of cultivating an **authentic and spontaneous relationship** with them, finding new points of view and new inspirations through their stories.

Customer Care constitutes an important branch of the Company, distinguishing itself for its attention and dedication to clients and

making reliability one of its main principles. **The attention to people is essential.**

With Ideal Lux, light becomes an element of our everyday life, able to **transform the ordinary into extraordinary**. In order to do so, it is important to select the lighting solution which best fits one's needs, because with the right light, every space can take on a **whole difference form, a completely different story.**

The ordinary is extraordinary

One brand, many people.

Believing in people is a choice we make every day. We put value on our collaborators, growing day after day together and we build lasting and transparent relations with customers and suppliers.

Know how to listen.

We are committed to understanding the needs and the dreams of the customers and transforming the difficulties into occasions with the aim of constantly ameliorate in this direction.

There is no quality without warranty.

We have extended the warranty of all our technical fittings to 5 years, to guarantee a high quality of both the product and the service.

**Making design
affordable for
everyone.**

We want to bring design into people's everyday lives with lighting solutions, aesthetically beautiful and functional, but at a contained price.

Fly new

Family composed by ceiling lamps with circular base, available with four different diameters (350 mm, 450 mm, 600 mm, 900 mm) and also in SLIM version with a more compact height. Powder coated aluminum body with white finish RAL 9016 and black finish RAL 9004, recessed optics (FLY PL) or flush (FLY SLIM) with PMMA microprismatic diffuser with glare control (UGR < 19). The lamp is ready to be integrated with the uplight accessory module for the indirect light part. Integrated LED light source; available with 2700 K, 3000 K and 4000 K color temperatures; color rendering index CRI ≥ 90; starting binning ≤ 3Step MacAdam; LED useful life 50.000 h ; protection IP40, insulation class I. Driver included, integrated in the body, dimmable options available: 1-10V, DALI and Push. Suitable for locations where professional and uniform lighting is required, such as OFFICES and SHOPS. The high color rendering level makes it ideal even for exhibiting spaces and for the enhancement of the products in a showroom and sales area of the RETAIL sector.

PRO

High-tech product with high quality materials, intended for professional use.

Family composed by ceiling lamps with circular base, available with three different diameters (300 mm, 400 mm, 600 mm). Body with white finish RAL 9016 or black finish RAL 9005, optics with PMMA microprismatic diffuser with glare control (UGR < 19, 22). Integrated LED light source; available with temperature CRI ≥ 90; LED useful life 50.000 L70B50 ; protection IP44, insulation class II. The lamp is equipped with an integrated switch to set up two different light emission tonality (color temperature 3000 k or 4000 k). Driver included, integrated in the body, dimmable options available. Product suitable for environments where a flexible, comfortable and uniform light is required, for example OFFICES and in the indoor spaces of the SERVICES SECTOR or RESIDENTIALS.

IP44 Protection degree IP44.

Deva ^{new}

Linear system composed of an extruded aluminum profile and magnetic lighting fixtures. The system is available in coated or anodized matt black, ceiling or suspended installation (SURFACE), quick recessed plasterboard installation (RECESSED EASY) or edgeless recessed installation between two plasterboard panels (RECESSED). Small dimensions of the electrified profile, 10 mm wide and 15 mm high, available in the two lengths, 1000 mm and 2000 mm, or with a 90° horizontal curved connection. Possibility of composition with different light modules, in white or black finish depending on the desired arrangement, modifiable if necessary: fixed or adjustable TRACK modules for spot lighting; ACCENT modules for focused lighting; PENDANT TUBE module for focused lighting; WIDE INNER linear modules hidden inside the profile, WIDE OUTER linear modules showing outside the profile or DISC circular modules, for diffused and uniform lighting. Integrated LED technology with colour temperature of 3000 K with high color rendering CRI ≥ 90 , IP20 protection, insulation class III, 24 Vdc power supply, non-dimmable, LED useful life 30,000 h L70B50. Ideal for lighting small environments where minimal size, wide application flexibility and high lighting quality are required, for example RESIDENTIAL, MUSEUM and RETAIL spaces.

Ego ^{new}

Linear system composed of an extruded aluminum profile and magnetically fastened lighting elements with mechanical safety lock. The system is available in matt black RAL 9005, matt white RAL 9016 or anodized satin brass, in the ceiling or suspension installation mode (LOW and HIGH), recessed without edge that disappears into the plasterboard (RECESSED), rapid recessed into the plasterboard (RECESSED EASY) or recessed with edges for plasterboard or paneled false ceilings (RECESSED TRIM). Reduced section of the profile 26 mm, 27 mm or 52 mm wide, available in two lengths 1000 mm and 2000 mm. Possibility of composition with different light modules depending on the desired arrangement, modifiable if necessary: the TRACK SINGLE, DOUBLE and FLAT SINGLE modules for spot lighting, the TRACK ZOOM module for targeted lighting with adjustment of the beam opening without tools, the ACCENT module with glare control (UGR < 19), the PENDANT TUBE modules for localized lighting and WIDE or PENDANT BALL modules for diffused and uniform lighting. Integrated LED technology with color temperature of 2700K, 3000K or 4000K; color rendering index CRI ≥ 90, initial binning ≤ 3Step MacAdam; IP20 protection, insulation class III, 48 Vdc power supply, LED useful life 50,000 h L70B50; system also available in dimmable 1-10V or DALI-2 version. Ideal for lighting small and large environments where ample flexibility and high quality lighting is required, for example MUSEUM, COMMERCIAL, RESIDENTIAL and RETAIL spaces.

PRO

High-tech product with high quality materials, intended for professional use.

Stick ^{new}

Dimmable linear system composed of extruded aluminum profile and lighting elements with magnetic fixing. The system is available in matt black for ceiling (SURFACE) or recessed installation that disappears into the plasterboard (RECESSED). Small profile section of 19 mm wide and only 13.5 mm high. Available in two lengths: 1000 mm and 2000 mm. Possibility of composition with different source modules which can be combined following the desired disposition and can be modified when needed: TRACK SINGLE and DOUBLE modules for a spot illumination, ACCENT modules for a localized illumination and WIDE modules for a diffused and uniform illumination. Integrated LED technology with color temperature of 2700K and 3000K; high color rendering CRI ≥ 90 ; IP20 protection, insulation class III, 48 Vdc power source,; LED useful life 50.000 h L70B50. The system is also available with 1-10 V dimmable version. Ideal for lighting details or small spaces where great flexibility and high light quality is required, such as MUSEUMS, RESIDENTIAL and RETAIL spaces.

BLINDED COVER

Arca

Extruded aluminum linear system compatible with a wide range of lighting modules with mechanical fixing. The system is anodized and varnished. It is available in black color and for different kind of installations: ceiling, suspension, or flush in plasterboard ceilings. Modules can be assembled according to the desired arrangement. Two profile lengths available: 1000 mm and 3000 mm. Possibility of assembly with different modules: WIDE diffusing modules, ACCENT modules with UGR < 13 and adjustable TRACK modules for targeted lighting. COB or SMD LED technology, 3000 K or 4000 K color temperature, initial binning ≤ 3-Step MacAdam, IP20 protection, insulation class III, LED useful life 50,000 h L70B50. The 48 Vdc power supply gives great versatility and safety, with reversible and modifiable compositions if necessary. The system is suitable for environments where professional and powerful lighting with a minimal design is required, such as OFFICES and COMMERCIAL spaces.

PRO

High-tech product with high quality materials, intended for professional use.

Fluo

Linear system of lamps with extruded aluminum, 50 mm wide and 80 mm high body. Modules available in two lengths: 1200 mm and 1800 mm, which can be assembled according to the desired arrangement. The system is available in two different arrangements: the WIDE diffusing module and the BI-EMISSION module with component for indirect lighting; integrated LEDs, color temperature options of 3000 K or 4000 K, chromatic index CRI ≥ 90 , starting binning ≤ 3 -Step MacAdam, IP20 protection, insulation class I; LED useful life 50.000 h L70B50. The system is available in white and black colors and it is possible to install it in different ways: single or continuous line for ceiling installation; suspended or flush-mounted in plasterboard ceilings. Included driver, integrated in the lighting fitting, available in 1-10V, DALI and Push dimmable versions. Suitable for locations where professional lighting with minimal design is required, such as COMMERCIAL and RETAIL.

High-tech product with high quality materials, intended for professional use.

Steel ^{new}

Linear aluminum lamp with direct and indirect light. The indirect light can be turned on or off thanks to the switch positioned on the edge of the fitting. The lamp is available in WIDE model with diffusing downlight optics made of microprismatized PMMA (UGR < 19) and in ACCENT model with black reflector (UGR < 16). Integrated LED sources, available with CCT 3000 K e 4000 K; CRI ≥ 90; lifetime 50.000 h L70B50; IP20. Suitable for offices, business premises and retail.

PRO High-tech product with high quality materials, intended for professional use.

UGR Product with UGR <16 (Accent), <19 (Wide).

Tesi 8mm new

Flexible steel tape for wall-to-wall tension application, to be used as a support for the application of LED strips for indirect lighting. Tape available in two widths of 8 mm and 20 mm, maximum length of 5 or 10 meters that can be cut to size, aluminum supports with locking system, available in steel, white or black finishes. Ideal for environments with an historical and architectural character that are already highly personalized, with its minimal section it disappears inside the environment to guarantee a result of extreme formal cleanliness.

Slot

Extruded aluminum body with anodized or powder coated surface, available in white, black, aluminum finishes, PMMA satin diffuser. Bars with different optional sections and length are available for the RECESSED version for plasterboard ceilings installation and SURFACE version for wall or ceiling installation. The ANGULAR models in the round and square version are designed with an internal angle of inclination of the light source for optimal illumination inside luminous veils and grooves. The linear modules are available in different lengths: 2000 and 3000 mm. They can be assembled according to the desired design and can be sectioned to size. Led and driver to be combined for a correct installation.

Quick

Extruded aluminum cylindrical tracklight suitable for installation on three-phase track. White or black powder coating, 355° turning head and 90° adjustable, the power driver is included and located in the cylindrical body of the projector itself. Light source with integrated COB LED technology for maximum efficiency, available with a color temperature of 3000 K or 4000 K; Energy efficient LED with high color rendering, up to CRI ≥ 90; starting binning ≤3-Step MacAdam; symmetrical beam optic with three different emission angles and glare control (UGR <19); assembly and disassembly without tools; IP20 protection; insulation class I; LED useful life 50.000 h L80B50. Ideal for installation in big rooms, where great flexibility and color rendering is required, such as MUSEUM, COMMERCIAL and RETAIL spaces.

PRO High-tech product with high quality materials, intended for professional use.

Fox new

Cylindrical extruded aluminum projector suitable for installation on single-phase and three-phase LINK track. White, black or satin brass powder coating, 350° rotating head and 90° adjustable. 1-10 V or DALI dimmable versions available. Light source with integrated LED COB technology, available with 3 different powers and with color temperatures of 2700 K, 3000 K or 4000 K and with color rendering index CRI ≥ 80 or CRI ≥ 90; starting binning ≤ 3-Step MacAdam; medium beam with accessories optics with narrow beam. Assembly and disassembly without tools. IP 20 protection; LED useful life 50.000 h L70B50. Perfect for lighting the small and medium size environments that require wide flexibility for arrangement, such as COMMERCIAL and RETAIL spaces, and an optimal performance-price ratio.

Eos new

Extruded aluminum cylindrical tracklight with variable opening beam from narrow to wide (20°-55°), suitable for single-phase or three-phase LINK track installation. White or black powder coating, 355° turning head and 90° adjustable. Dimmable 1-10 V or DALI versions available. Light source with integrated COB LED technology, available with two different powers and color temperature of 2700 K, 3000 K and 4000 K and chromatic index ≥ 90 ; starting binning ≤ 3 -Step MacAdam. Assembly, disassembly and adjustment of the beam opening without tools. IP20 protection; LED useful life 30.000 h L70B50. Ideal for installation in big rooms, where great flexibility and high color rendering is required, such as EXHIBITION, MUSEUMS and COMMERCIAL.

Link 3-Phase

Three-phase electrified track with extruded aluminum profile; black or white powder coated, optimized for standard 3-Phase or equivalent projectors; available in ceiling, suspension or recessed versions with edge for installation on plasterboard ceilings; suitable for continuous lines systems, standard modules of 1000mm, 2000mm or 3000mm modules length. Ideal for installation in big spaces where flexibility and long connection distances are required, for example MUSEUM, COMMERCIAL and RETAIL spaces.

Link 1-Phase **new**

Single-phase electrified track with extruded aluminum profile; black powder coated; available in ceiling or recessed versions with edge for installation on plasterboard ceilings; suitable for continuous lines systems, standard modules of 1000mm, 2000mm or 3000mm length. Ideal for installation in environments where flexibility and compactness are required, for example RESIDENTIAL, COMMERCIAL and RETAIL spaces.

Insulation class	I
IP	20

Link 1-Phase Surface On/Off

TRACK No mounting kit required, direct ceiling installation.

Zeus

Modular system of recessed elements consisting of an adjustable source, reflector and round or square ring, with optional shielding lenses and accessories; white and black finish; ring available in TRIM version with frame or TRIMLESS without frame for installation in plasterboard false ceilings; two different emission angles to choose from. Light source with integrated COB LED technology, available with a color temperature of 2700 K, 3000 K or 4000K and high color rendering CRI ≥ 90 ; insulation class II; LED useful life 50.000 h L70B50. Also available in dimmable 1-10V, DALI and PUSH versions. Suitable for installations in indoor environments in the SERVICES and RETAIL sectors.

PRO

High-tech product with high quality materials, intended for professional use.

Game ^{new}

Die-cast aluminum recessed spotlight with round or square ring, suitable for installation on plasterboard or paneled ceilings. Available finishes: matt silver, matt white RAL 9001, matt black RAL 9011 and matt gold RAL 1032. Available versions: with external frame (TRIM), retractable without frame for plasterboard (TRIMLESS), or with frame and improved frontal protection (IP65). COB LED technology; available in 2700K, 3000K or 4000K color temperature; SMD LED technology, CCT 2700K, 3000K or 4000K; color rendering index CRI \geq 90, starting binning \leq 3Step MacAdam; IP20 protection; insulation class II; LED useful life 50,000 h L70B50. Dimmable 1-10V, DALI and PUSH versions available. Due to its compact size and great versatility it is ideal for installations in RESIDENTIAL, COMMERCIAL and RETAIL indoor environments.

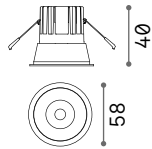

Product with UGR <19.

Off

Unmovable aluminum recessed fitting with round ring in three different dimensions, suitable for plasterboard ceilings installation. Matt black RAL 9005 and matt white ral 9016 finishes, Passively cooled integrated LED ; COB (Chip on Board) technology for maximum efficiency; UGR < 19; starting binning ≤ 3-Step MacAdam; available with 3000 K and 4000 K color temperature; CRI ≥ 90; front protection IP54 (after installation of the product); insulation class II; dimmable options: 1-10V, DALI and Push; LED useful life 50.000 h L80B50. Suited for OFFICES and MANAGERIAL environments and in general where computers are present and there is the necessity to guarantee a great glare control. The high color rendering level makes it ideal even for exhibiting spaces and for the enhancement of the products in a showroom and sales area of the RETAIL sector.

PRO

High-tech product with high quality materials, intended for professional use.

* The dimmable power supplies must be ordered in concomitance with the product and will be included inside the fittings by replacing the on-off power supply.

Basic

Die-cast aluminum recessed spotlight with round seal. Suitable for the installation on plasterboard ceiling. Matt white finish; COB Chip on Board and SMD technology; available in different color temperatures 3000 K and with three different optics; CRI ≥ 90 ; front protection IP44 (after installation of the product); insulation class II; LED useful life 30.000 h L70B50.

IP44 Protection degree IP44.

Kit emergency

Emergency kit for LED modules.
Includes inverter and battery.
From two to three hours autonomy and recharging time respectively of 12 and 24 hours. It operates for emergency only or as continuous light (continuous light combined with electronic power supply and dimmable electronic power supply).
Insulation class II.

Dove Grey	Rope	Gold	Brass	Copper	Coffee	Antique Brass
						
Rust						

Notes

The finishes represented are for illustrative purpose only. The tones are subjected to variations due to the material type used and to its manufacturing which can modify the output, as a consequence the items classified under the same finish can present some differences concerning color perception.

Technical icons

Class I Electrical safety guaranteed by main insulation and additional protective conductor (earthing) connected with metal lamp frame. Earthing is obligatory.

Class II Electrical safety guaranteed by main insulation and double or reinforced insulation. Earthing not necessary.

Class III Electrical safety guaranteed by very low power supply (less than 50 Volt). Earthing excluded.

Item not appropriate for direct or recessed installation on normally flammable surfaces.

Mark of conformity to European Community Safety regulations.

Symbols

Bulb included.

Items with LED lights: very low consumption, highly bright and focused light, strength and durability.

Integrated switch button.

Lamp with touch switch: switching on and dimming by touching the base with a finger.

Luminaire with dimmer.

Lamp with integrated USB socket.

Up-light included.

High-tech product with high quality materials, intended for professional use.

Product with UGR.

Item suitable for painting and varnishing.

Protection degree.

Item made of stainless steel 316.

Lamp with presence detector included PIR (Passive InfraRed).

Lamp with rechargeable battery included

Notes

-The indicated prices are public prices VAT excluded.

-Ideal lux s.r.l. reserves the right to make, at any time and without notice, all the changes necessary to improve the quality of the items included in this catalogue. For the most updated features, please check the documentation available on our website (www.ideal-lux.com).

-Our products with Class I and II work with nominal Voltage of 220-240 Vac 50/60 Hz. All our products comply with EU legislation.

-Whenever purchased separately as "optional", the DIMMABLE DRIVER will be already included in the product as replacement for the default on-off driver: only one driver will be supplied.

-The Watt indicated in the catalogue express the NOMINAL power of the lighting fitting including source and driver, when present. The Lumen measures referred to the lighting fittings with integrated LED source are nominal, namely referred to the source. We kindly invite you to check

photometry files for the actual Lumen of the single lighting fittings. For further information and updates.

-The UGR rate is not a characteristic of the fitting itself, but of the installation. The UGR values reported in this catalogue are calculated taking into consideration an ideal installation and are regrouped into blocks <10 <13 <16 <19 <22. It is recommended to calculate the specific UGR according to your installation.

-The useful life of the LED sources of all the products in the catalogue refers, when it is not differently declared, to the L70B50 value.
